**Public Education
Bilingual Education**
CFC Monthly Monitoring Report

Descriptions:

- **Actual:** October headcount enrollment in the Bilingual program.
- **Budget Forecast:** Caseload forecast adopted by the Caseload Forecast Council to serve as the basis for the biennial or supplemental budget. The actual budget may incorporate adjustments to this forecast to reflect legislation and policy decisions by the legislature subsequent to the development of the forecast.
- **Current Forecast:** Most recent forecast adopted by the Caseload Forecast Council; may be the same as the Budget Forecast.

Special Notes:

The chart and tables present the October Enrollment, while the official caseload forecast is the 'annual average.' The October enrollment is used here because it allows the display of the current year before the annual average is available and because the October enrollment is used to forecast future school years. The October enrollment will differ from the annual average, but is typically a good proxy for the final annual average.

Disclaimer of Liability:

Although the Washington State Caseload Forecast Council does all that it can to assure the accuracy of its forecasts and the data on which its forecasts are based, no warranty expressed or implied is made regarding accuracy, adequacy, completeness, legality, reliability, or usefulness of any information contained herein. This disclaimer applies to both isolated and aggregate uses of the information. If you find any errors or omissions, we encourage you to report them to the Caseload Forecast Council.
